

Product Features

- Extra Large Water Tank: 180L large capacity, longer battery life, greatly reducing water refilling frequency and improving work efficiency.
- Upgraded Brush Disc: 96cm widened brush disc, large coverage area, significantly improving cleaning efficiency.
- Easy Operation: Unique appearance with high recognition, simple operation, flexible driving, and easy for beginners to get started.
- Easy Disassembly and Assembly: The whole machine is easy to disassemble and assemble, equipped with double magnetic suction brush discs to further enhance operational convenience.
- Fashionable Appearance: Strip decorative light strip+4 LED headlights, outstanding appearance, balancing practicality and aesthetics.

Technical Parameters

Cleaning width (brush size"inch)	920mm/18"*2
Squeegee width	1350 mm
Solution tank capacity	180 L
Recovery tank capacity	185 L
Battery	24 V/200 Ah
Drive motor	1200 W
Vacuum motor	550 W
Brush motor	550 W*2
Continuous operating time	4~5 h
Weight (inc. battery)	370 kg
Max. coverage per hour	7500 m ² /h
Product size	1600*920*1375 mm
