PRECISION COOLING SYSTEM

GT ROOM COOLING SERIES

AIR COOLED / WATER COOLED / CHILLED-WATER COOLED

INTRODUCE ▶▶▶

With over 10 years of development, we have exported our various kinds of products and solutions to 86 countries and have branches and offices in over 55 countries and regions. Our products and solution won a good reputation in quality and service.

Mission

Committed to innovation in digital energy technology and building a green and intelligent future.

Vision

Serve global customers and become a leading expert in digital Power infrastructure.

GOTTOGPOWER

COMPANY PROFILE

GOTTOGPOWER focuses on the R&D, production, and application of data center integrated solutions. As technical consulting, product supply, system integrator, and service provider, it is committed to serving customers in the fields of communication equipment rooms, data centers, smart construction, and energy management.

Our solutions include data center temperature, humidity, and energy-saving solutions, small and medium-sized computer room temperature control solutions, micro-module data center solutions, micro-module cabinet solutions, container, and modular data center solutions, communication outdoor cabinet temperature control and energy saving Solutions, cabinet temperature and humidity, and energy-saving solutions.

Has rich research and manufacturing experience in the field of data center equipment, with world-class laboratories, production testing equipment, and a complete line of key equipment rooms. And passed the ISO9001 quality management system certification, ISO14001 environmental management system certification, and the products have passed CE certification, CCC certification, CQC certification, CRAA quality certification, etc.

We are committed to "paying attention to customer needs and realizing customer value" and establishing a win-win cooperation pattern with customers. To become your most trustworthy, most grateful, most professional, most practical, and most reliable partner with the best vision. We will "make every effort to provide value for money products and services to make customers more competitive", and continue to explore and innovate.

Product Introduction

- Introduction

Room precision air conditioning system adopts international cutting-edge constant temperature and constant humidity technology, which is designed and developed for a precision environment. This series of products is dedicated to equipments with high precision control requirements of temperature, humidity, and cleanliness and requires equipment continuous operation 24 hours*365 days.

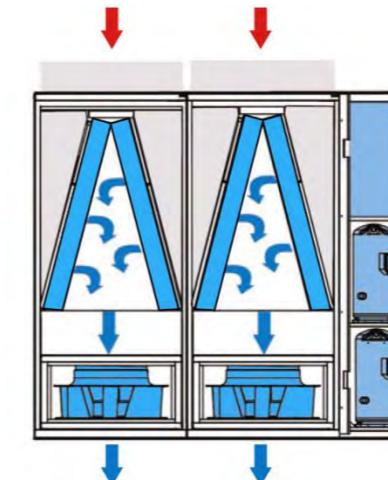

- Application

- Computer room and data center
- Switch room and mobile center station in telecommunication
- High-tech environment and lab
- Industrial automation control room and precision manufacturing workshop.
- Standard test room and calibration center
- UPS and battery room
- Test room in the hospital
- Biochemical culture room

Product Configuration

- Downflow

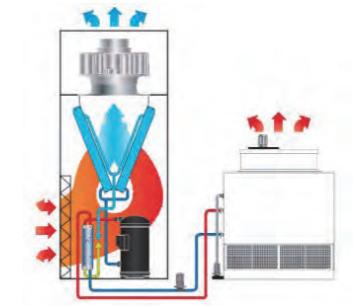

- Upflow

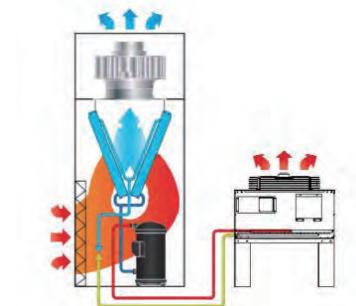

- Options

- Long Piping Kit
- Low-temperature Kit
- Water Leaking Kit
- RS485/ SNMP Network Monitoring Card
- Automatic Phase Switching Module

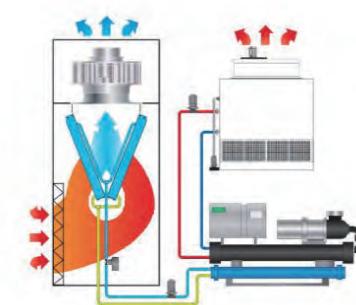

Cooling Type

Water - cooled

Air - cooled

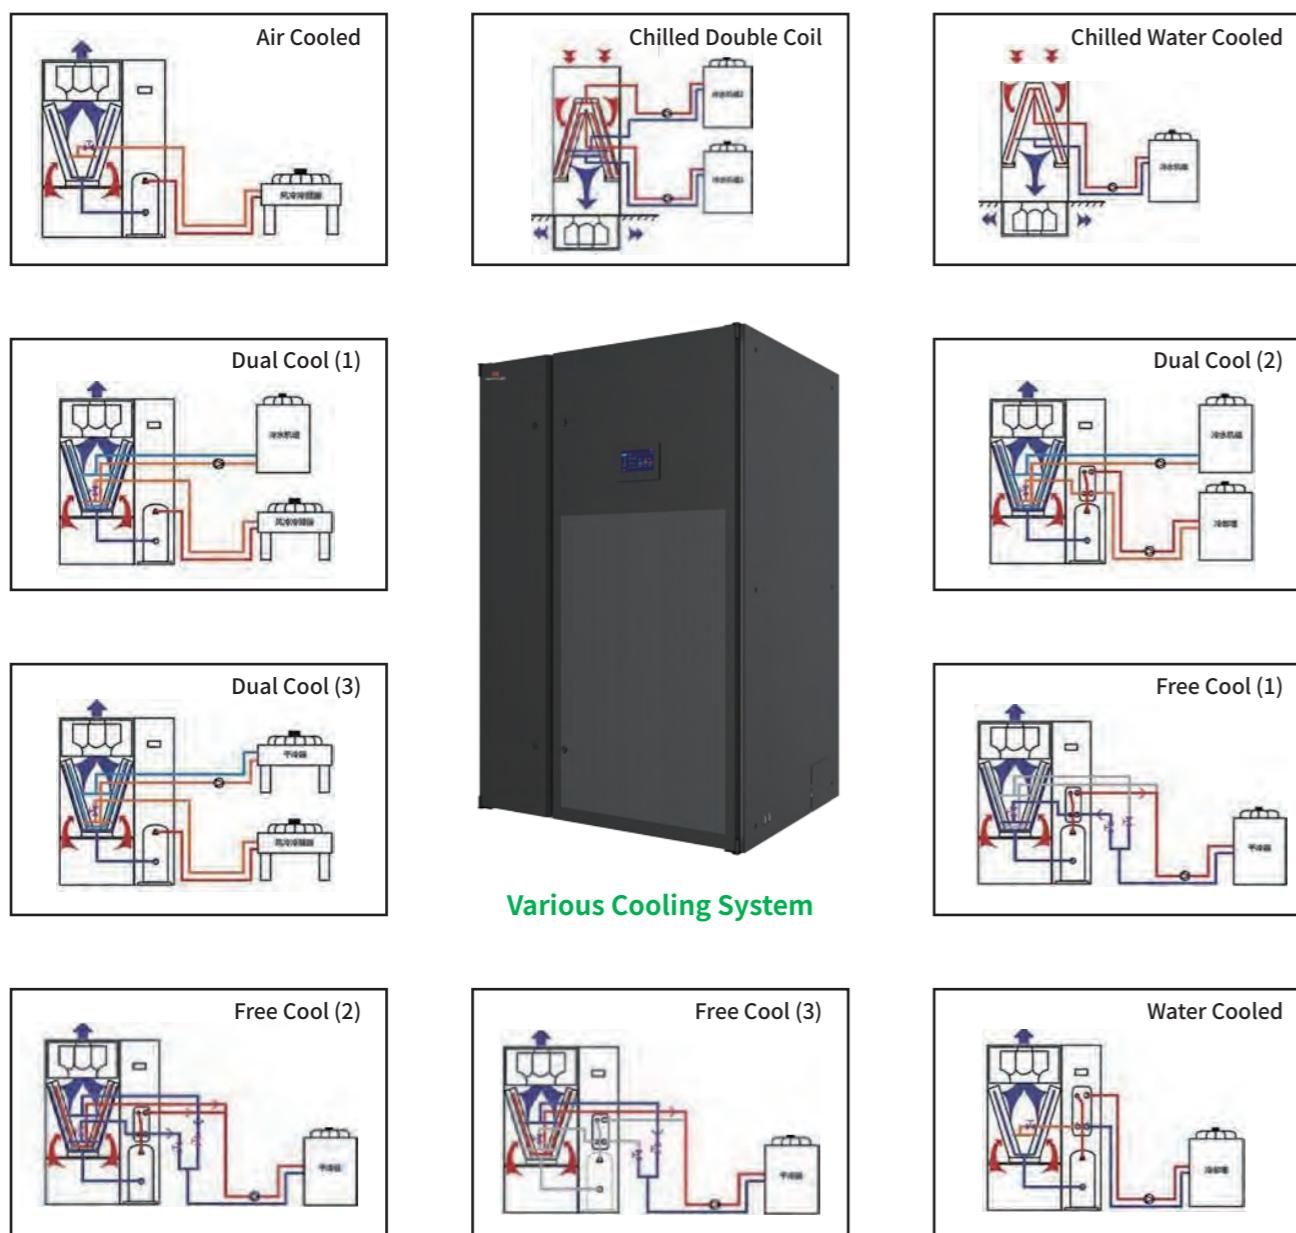

Chilled water

- Lightning Protection Module
- High-power Electric Heating System
- Large Color Display
- Remote Temperature and Humidity sensor
- Ultra-quiet Air-cooled Outdoor Condenser

Model Configuration

SY	Company identification	GOTTOPOWER
RC	Unit type	Room cooling
MA	Structural form	Standard construction/Modular structure
30	Nominal cooling capacity	30KW
U/D	Upward air supply and forward air return	Downdraft and updraft

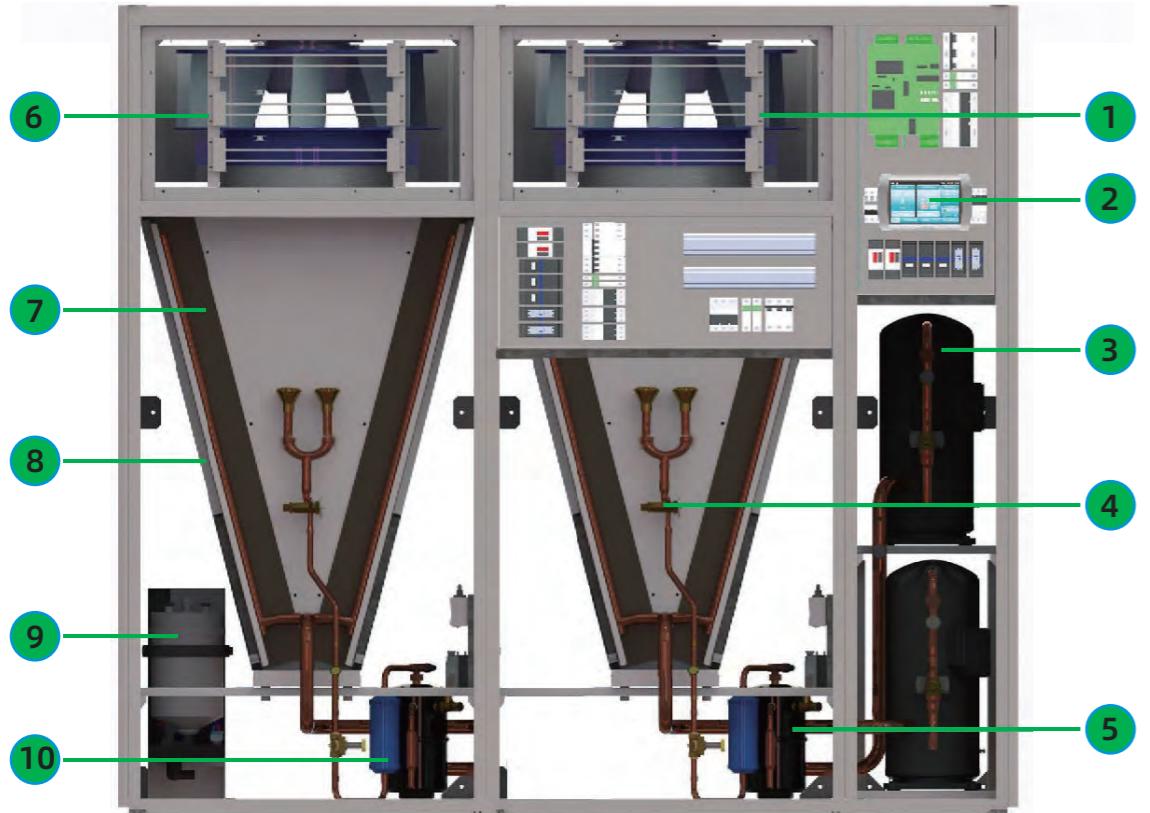

- air-cooled, water-cooled, glycol-cooled, chilled water cooled , chilled double coil type, CW+DX Dual Cool (air-cooled chilled water, water-cooled chilled water, glycol cool chilled water), There are more than ten kinds of cooling type, such as glycol free cooling, etc., to meet various types of application requirements.

Premium performance

Working environment	Operating voltage and frequency: 380V±10% 50±3Hz Temperature range: -40~50°C
Air volume of each fan	2250 ~ 27100 m ³ /h
Cooling capacity range	7.5 ~ 122.9KW
Energy efficiency ratio (EER)	EER ≥ 3.0
External static pressure (ESP)	20 ~ 300Pa
Set Temperature	15 ~ 35 ±1%
Set Humidity	30-80% ±5%
Filter screen grade	> G4
Protection functions	<p>System protection : The system is equipped with phase sequence protection, over/under voltage protection and phase loss protection as standard, with optional surge protection, phase sequence fault tolerance and water leakage alarm.</p> <p>Component protection : Standard configuration as compressor protection, fan alarm, temperature and humidity sensor failure, humidifier protection, heater protection, optional filter blocking alarm, etc.</p>
Monitoring functions	<p>Supports RS - 485 communication interface and MODBUS RTU protocol (standard) Supports Ethernet interface, and supports MODBUS TCP, SNMP, HTTP and other protocols (optional) Supports WEB based access to the unit (optional)</p>
IP Class	IP54 (outdoor unit), IP20 (indoor unit)
Insulation Level	F
Fire protection grade	A
Safety devices	Optional smoke alarm, fire alarm
Informative interface	<p>A) Display specification: 7" touchscreen colour display as standard.</p> <p>B) Contents of the display: 1. Real-time operating status of the unit. 2. Automatic maintenance prompts, fault diagnosis, component alarm messages, etc. 3. Graphical display of temperature and humidity curves, output status of all components and component running time.</p> <p>C) Information recording time: 1. the operating time of the entire unit and its components. 2. all operational actions of the unit. 3. 500 historical alarm records.</p>
Other features	<p>Energy efficient units with EER greater than 3.6 Multiple supply and return air temperature control methods Variable set point control</p>

High-quality structure and component

- **1 - PTC Electric Heater**

Three-stage electric heating, with perfect overheat protection and air ionization prevention function.

- **3 - Scroll compressor**

Flexible scroll compressor with high efficiency, optional EC compressor, which can regulate cooling capacity from 10% to 100%, and dynamically output cooling capacity according to demand, energy saving, and high efficiency.

- **5 - Fluid storage tank**

The standard fluid storage tank ensures that the system can operate normally in any environment.

- **7 - Evaporator**

Hydrophilic fins, internally threaded copper tubes, efficient design, and hair removers with advanced technology are corrosion-resistant, long-life, and high-rate, fully matching with compressors and other refrigeration system components.

- **9 - Humidifier**

The electrode humidifier uses tap water and has an automatic cleaning function. It can quickly produce pure steam and can be repaired without stopping the machine.

Room Cooling GT Cooled Series

- **Precise temperature and humidity Control**

- Datacool has a constant temperature and humidity function, temperature control accuracy of $\pm 1^\circ\text{C}$ and relative humidity control accuracy of $\pm 5\%$.

- **Wide Range of Cooling Capacity**

- 7.5 KW - 122.9 KW
- Single circuit indoor unit, dual circuit indoor unit
- Single circuit condenser, dual circuit condenser

- **High Adaptability**

- Multi-air discharge choices including Down flow and Up flow and soon
- Multiple monitoring interface
- Suitable for various ambient temperature (Optional low temperature kits)
- Customized design available

- **Intelligent Communication Function**

- RS 485 standard interface is compatible with Modbus protocol. Through the communication interface, Can be access Dynamic environment monitoring DCIM, BMS, remote monitoring systems

- **High Reliability**

- Strictly complied with CE and IEC standards
- High quality components with strict certification
- Strict factory testing and commissioning before delivery

- **High Energy Efficiency**

- Efficient and quiet flexible scroll compressor
- Efficient EC fan, continuous airflow adjustment
- Controller ensure s optimum cooling efficiency
- Electrode humidifier to realize precise humidity control
- Precision Electronic Expansion Valve precision cooling control

Environment Friendly Refrigerant : R410 A

Room Cooling DX Air Cooled

Notes:

1, Technical data based on 28°C/40%RH return air conditions.

2, The standard ESP 20Pa. Higher application shall refer to technical department for confirmation.

3, Standard with 2 way valves and optional with 3 way valves.
