

GT150/500 Air Purifier Commercial Air Cleaner

Characteristics

- High-frequency plasma disinfection & deodorization
- Dual-action: kills germs & removes odors
- Positive & negative ions eliminate odors without secondary pollution
- Active purification mode
- No consumables, low operating cost
- Wall-mounted installation, space-saving
- Plug and play, no setup required
- Low noise operation
- Supports APP remote control and smart management

Model	Product Name	Key Functions & Parameters	
GT150	Air Disinfection Purifier	Function	Disinfection / Purification
		Airflow	Internal Circulation 450m³/h
		Air Purification	Particulate CADR: 330m³/h
			Formaldehyde CADR: 300m³/h
		Air Disinfection	Bacteria Removal Rate: 99%
			Virus Removal Rate: 99%
		Power	23W
		Applicable Area	5~10m³
		Operating Environment	-15°C~+45°C
		Service Life	10-Year Warranty on Core Components
GT500	Air Disinfection Deodorizer	Dimensions	350x240x90mm
		Weight	4.2kg
		Function	Disinfection/ Deodorization
		Airflow	Circulation Airflow: 500m³/h
		Odor Removal	Odor Removal: 90%
			VOC Removal: 99%
		Air Disinfection	Bacteria Removal Rate: 99.9%
			Virus Removal Rate: 99%
		Power	160W
		Applicable Area	10~20m³
		Operating Environment	15°C~+45°C
		Service Life	10-Year Warranty on Core Components
		Dimensions	480x350x160mm
		Weight	10.5kg
