PRECISION COOLING SYSTEM

DATA COOL SERIES

AIR COOLED / WATER COOLED / CHILLED-WATER COOLED

Products and Solutions

01

- Data Center Solution : Micro Data center, Modular Data Center, Prefabricated Container Data Center.
- Critical Power : PDU, UPS, DC Power System, Lead Acid Battery, Lithium battery.
- Thermal Management Solution : Room /In row precision air conditioner, Fluorine pump air conditioner Liquid cooling, Free cooling.
- PV Energy Storage : PV, Inverter, Energy Storage System.

02

- Shuyi attaches great importance to product innovation and research and development. Having industry-leading power electronics research and development centers, testing centers, and laboratories.

03

- At present, we have established industry-leading electromagnetic compatibility laboratories, including Enthalpy difference laboratory, Environmental reliability laboratory, Noise laboratory, Vibration laboratory, Power laboratory, and IP protection laboratory. We have obtained ISO9001 quality management system certification, ISO14001 environmental management system certification, and the products have been certified by CE, ICE, UL certification.

COMPANY

PROFILE

Shuyi digital power, based on the core technology of power electronics, integrates innovative digital technology, provides comprehensive solutions for data center, high-end power supply and clean energy, promotes the transformation and development of digitalization and low-carbon energy in government, finance, industry, communication, transportation, Internet and other industries.

INTRODUCE

With over 10 years of development, we have exported our various kinds of products and solutions to 86 countries and have branches and offices in over 55 countries and regions. Our products and solution won a good reputation in quality and service.

Mission

Committed to innovation in digital energy technology and building a green and intelligent future.

Vision

Serve global customers and become a leading expert in digital Power infrastructure.

SOETECK

Hefei Shuyi Digital Power Co., Ltd.

Product Introduction

- Introduction

Room precision air conditioning system adopts international cutting-edge constant temperature and constant humidity technology, which is designed and developed for a precision environment. This series of products is dedicated to equipments with high precision control requirements of temperature, humidity, and cleanliness and requires equipment continuous operation 24 hours*365 days.

- Application

- Computer room and data center
- Switch room and mobile center station in telecommunication
- High-tech environment and lab
- Industrial automation control room and precision manufacturing workshop.
- Standard test room and calibration center
- UPS and battery room
- Test room in the hospital
- Biochemical culture room

Product Configuration

- Downflow

- Upflow

- Options

- Long Piping Kit
- Low-temperature Kit
- Water Leaking Kit
- RS485/ SNMP Network Monitoring Card
- Automatic Phase Switching Module
- Lightning Protection Module
- High-power Electric Heating System
- Large Color Display
- Remote Temperature and Humidity sensor
- Ultra-quiet Air-cooled Outdoor Condenser

Cooling Type

Water - cooled

Air - cooled

Chilled water

Model Configuration

SY	Company identification	SOETECK
RC	Unit type	Room cooling
MA	Structural form	Standard construction/Modular structure
30	Nominal cooling capacity	30KW
U/D	Upward air supply and forward air return	Downdraft and updraft

- air-cooled, water-cooled, glycol-cooled, chilled water cooled , chilled double coil type, CW+DX Dual Cool (air-cooled chilled water, water-cooled chilled water, glycol cool chilled water), There are more than ten kinds of cooling type, such as glycol free cooling, etc., to meet various types of application requirements.

Various Cooling System

Premium performance

Working environment	Operating voltage and frequency: 380V±10% 50±3Hz Temperature range: -40~50°C
Air volume of each fan	2250 - 27100 m³/h
Cooling capacity range	7.5 - 122.9KW
Energy efficiency ratio (EER)	EER ≥ 3.0
External static pressure (ESP)	20 - 300Pa
Set Temperature	15 - 35 ±1%
Set Humidity	30-80% ±5%
Filter screen grade	> G4
Protection functions	System protection : The system is equipped with phase sequence protection, over/under voltage protection and phase loss protection as standard, with optional surge protection, phase sequence fault tolerance and water leakage alarm. Component protection : Standard configuration as compressor protection, fan alarm, temperature and humidity sensor failure, humidifier protection, heater protection, optional filter blocking alarm, etc.
Monitoring functions	Supports RS - 485 communication interface and MODBUS RTU protocol (standard) Supports Ethernet interface, and supports MODBUS TCP, SNMP, HTTP and other protocols (optional) Supports WEB based access to the unit (optional)
IP Class	IP54 (outdoor unit), IP20 (indoor unit)
Insulation Level	F
Fire protection grade	A
Safety devices	Optional smoke alarm, fire alarm
Informative interface	A) Display specification: 7" touchscreen colour display as standard. B) Contents of the display: 1. Real-time operating status of the unit. 2. Automatic maintenance prompts, fault diagnosis, component alarm messages, etc. 3. Graphical display of temperature and humidity curves, output status of all components and component running time. C) Information recording time: 1. the operating time of the entire unit and its components. 2. all operational actions of the unit. 3. 500 historical alarm records.
Other features	Energy efficient units with EER greater than 3.6 Multiple supply and return air temperature control methods Variable set point control

High-quality structure and component

- 1 - PTC Electric Heater**
 Three-stage electric heating, with perfect overheat protection and air ionization prevention function.
- 2 - Intelligent control system**
 7-inch touch screen, operating status and alarm display,advanced human-machine interface, realize simple and fast operation, professional, energy-saving and intelligent functions.
- 3 - Scroll compressor**
 Flexible scroll compressor with high efficiency, optional EC compressor, which can regulate cooling capacity from 10% to 100%, candynamically output cooling capacity according to demand, energy saving, and high efficiency.
- 4 - Expansion valve**
 Adopting internationally renowned high-quality brands, the products have excellent performance, high sensitivity and are easy to replace.
- 5 - Fluid storage tank**
 The standard fluid storage tank ensures that the system can operate normally in any environment.
- 6 - High-efficiency fan**
 EC fan, backward-inclined EC fan,has the advantages of high efficiency, energy saving, low noise, and continuously adjustable air volume.
- 7 - Evaporator**
 Hydrophilic fins, internally threaded copper tubes, efficient design, and hair removers with advanced technology are corrosionresistant,long-life, and highrate, fully matching with compressors and other refrigeration system components.
- 8 - Air filter**
 The metal frame G4 standard filter can be repeatedly washed down to reduce running costs.
- 9 - Humidifier**
 The electrode humidifier uses tap water and has an automatic cleaning function.It can quickly produce pure steam and can be repaired without stopping the machine.
- 10 - Drying filter**
 It has efficient acid removal,filtering and drying capabilities to ensure reliable system operation.

Room Cooling DX Cooled Series

- Precise temperature and humidity Control**
 - Datacool has a constant temperature and humidity function, temperature control accuracy of $\pm 1^{\circ}\text{C}$ and relative humidity control accuracy of $\pm 5\%$
- Intelligent Communication Function**
 - RS 485 standard interface is compatible with Modbus protocol. Through the communication interface, Can be access Dynamic environment monitoring DCIM, BMS, remote monitoring systems
- Wide Range of Cooling Capacity**
 - 7.5 KW - 122.9 KW
 - Single circuit indoor unit, dual circuit indoor unit
 - Single circuit condenser, dual circuit condenser
- High Reliability**
 - Strictly complied with CE and IEC standards
 - High quality components with strict certification
 - Strict factory testing and commissioning before delivery
- High Adaptability**
 - Multi-air discharge choices including Down flow and Up flow and soon
 - Multiple monitoring interface
 - Suitable for various ambient temperature (Optional low temperature kits)
 - Customized design available
- High Energy Efficiency**
 - Efficient and quiet flexible scroll compressor
 - Efficient EC fan, continuous airflow adjustment
 - Controller ensure s optimum cooling efficiency
 - Electrode humidifier to realize precise humidity control
 - Precision Electronic Expansion Valve precision cooling control

Environment Friendly Refrigerant : R410 A

Notes:
1, Technical data based on 28°C/40%RH return air conditions.
2, The standard ESP 20Pa. Higher application shall refer to technical department for confirmation.
3, Standard with 2 way valves and optional with 3 way valves.
