Professional Customization Service

When designing the adhesive tapes as products for your private label range, you can customize everything individually:

- Roll core
- Roll packaging
- Roll label
- Boxes
- Logistics label

ABOUT NewTime

NewTime Ltd was established in 2000 and is headquartered in Anhui's HeFei City.

Our Newtime brand of adhesive-coated tapes has a longstanding history of 20 years in the adhesive products industry, during which time it has become a leading brand in the field of product performance improvement. Our local market and technical expertise, coupled with our presence in the domestic and overseas markets, enable us to leverage manufacturing and R&D capabilities to create innovative and sustainable solutions that help our customers succeed in their businesses.

The Newtime is committed to continuous innovation for customers, creating high-value and responsible products, and becoming a responsible supply chain. According to customer needs, we will provide professional advice, adjust the optimal solution in one-stop, and help customers with intelligent manufacturing.

The continuous development of the Newtime, as always, deep dive in the field of industrial adhesive solutions, and strive to do better!

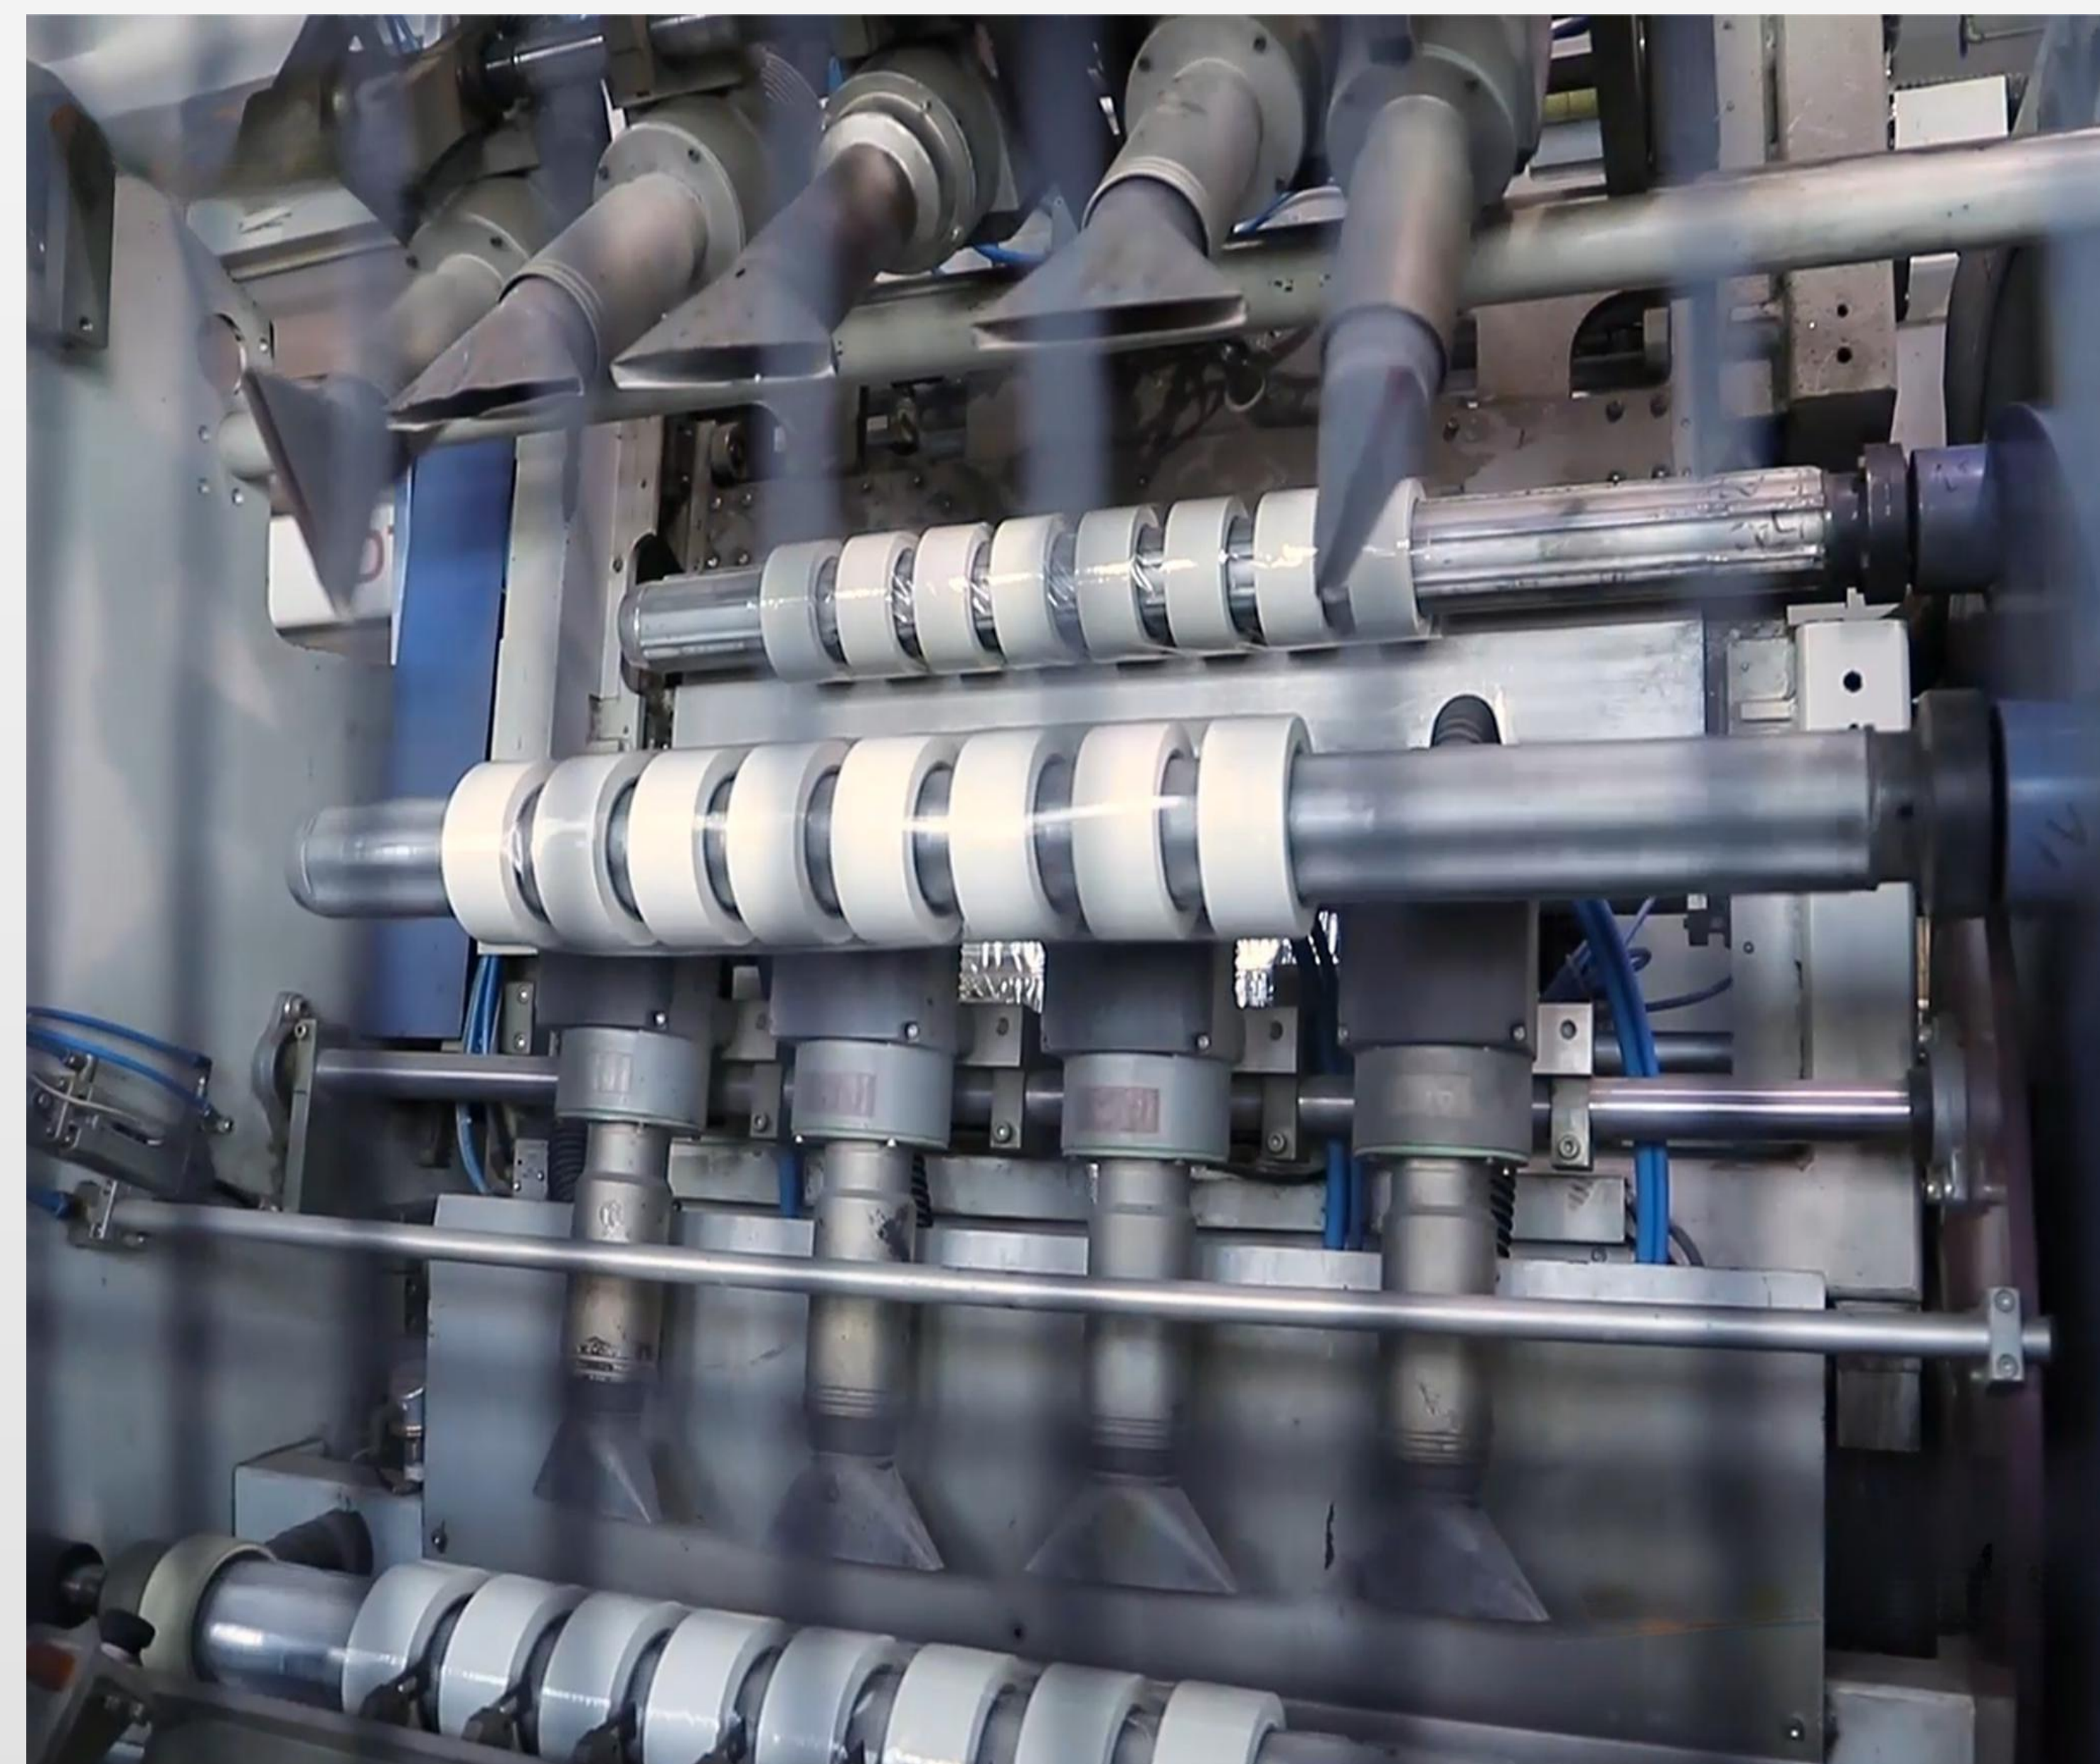

Manufacturing

Newtime Tape manufactures a comprehensive range of adhesive tape solutions covering a wide array of applications and markets. Its two vertically integrated manufacturing and processing plants in China boast some of the country's largest production capacities for masking tapes and cloth-backed tapes. The plants employ end-to-end production technologies, encompassing core processes such as papermaking, paper impregnation, release coating and adhesive application. The majority of the core technical staff have backgrounds with leading European adhesive tape brands and possess key development capabilities in the field of adhesive products.

Quality

The mission of **Newtime Tape** is to achieve and maintain leadership positions in the adhesive tape industry worldwide through continuous product innovation, continuous improvement of the quality of existing products, and maximisation of customer service quality through flexibility, efficiency and customisation of services offered.

Markets

Newtime Tape is a professional manufacturer of high-performance adhesive tapes, serving four key market segments:

- * **Construction & Home Renovation** – Our tapes provide reliable solutions for sealing, bonding, masking, and surface protection in building projects and home improvement applications.
- * **Automotive Aftermarket** – Designed for repair shops and car enthusiasts, our automotive-grade tapes deliver strong adhesion, heat resistance, and durability for wiring harnessing, trim fixing, masking during painting, and other vehicle maintenance tasks.
- * **Household & DIY (Hardware Tools)** – Ideal for everyday home use, our tapes are perfect for quick fixes, crafts, tool grip enhancement, and general hardware-related tasks, offering convenience and reliability for personal projects.
- * **Manufacturing & Industrial Use** – For factory operations, we supply heavy-duty tapes that excel in bundling, mounting, splicing, surface masking, and temporary holding, helping improve efficiency and safety on production lines.

With a commitment to quality and innovation, Newtime Tape delivers tailored adhesive solutions that meet the specific demands of each sector.

Certifications

The Newtime Tape operates according to the highest quality standards with a **ISO9001** certified management system, in full compliance with current regulations (SGS, ROHS, REACH-SVHC, etc.).
