1 PRODUCT INTRODUCTION

The Newtime designs their products according to focus on niche and expertise fields in depth from industry to daily life use. They adhere this principle from the establish year in the year of 1998, in addition their designed solutions are around the world corners aiming to enhance efficiency and cost saving.

Integrity - Pragmatism - Focus - Innovation

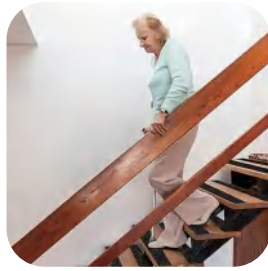

PVC ANTI SLIP TAPE

ProductDescription

- PVC non-slip tape, good flexibility.
- Can fit on different surfaces.
- The non-slip grade has reached R13, have certificates of RoHs, Reach and California 65. Solvent acrylic glue not easy to crack in winter, not easy to overflow in summer.

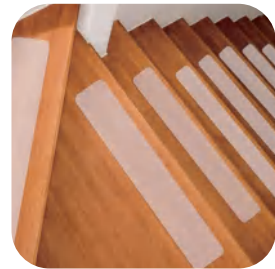

PEVA ANTI SLIP TAPE

ProductDescription

- Suitable for all smooth surfaces.
- Softer and excellent heat resistance.
- The anti-slip grade has reached R10, have certificates of RoHs, Reach. Solvent acrylic glue not easy to crack in winter, not easy to overflow in summer.

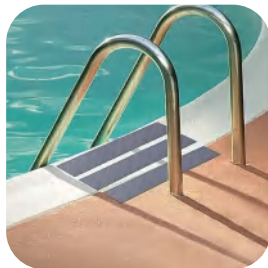

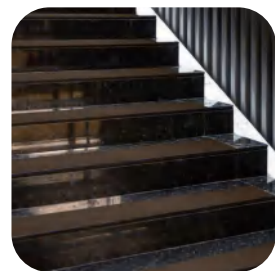

PET ANTI SLIP TAPE

ProductDescription

- It has high tensile strength, rigidity and hardness, which is waterproof, has good chemical stability.

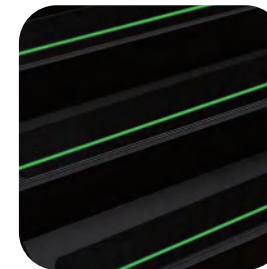

GLOW ANTI SLIP STRIP

ProductDescription

- Prevent Injury by falling & slipping.
- Long lasting luminous glow for extra safety.
- Any area that requires vigilance in dark or dim conditions.

REFLECTIVE STRIP

ProductDescription

- Our stair treads have embedded reflective strips to accentuate the edge of each step in low-light conditions, increasing visibility and preventing hazards.

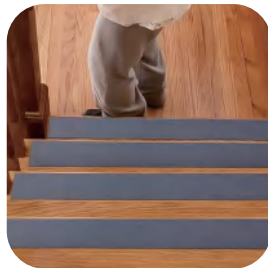

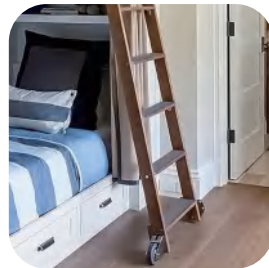

PVC PRINTING IS NON-SLIP

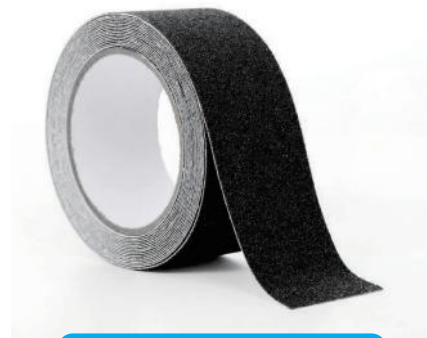

ProductDescription

- PVC-Anti-Rutsch-Klebeband.
- Can fit on different surfaces.
- The anti-slip grade has reached R13, have certificates of RoHs, Reach and California 65. Solvent acrylic glue not easy to crack in winter, not easy to overflow in summer.

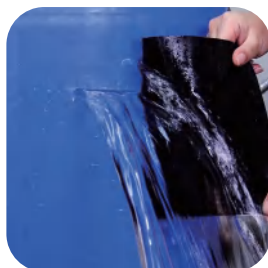

RUBBER GRANULE ANTI SLIP TAPE

ProductDescription

- Due to its waterproof and abrasion-resistant properties, an enhanced anti-slip effect is ensured.

WATERPROOF REPAIR TAPE

ProductDescription

- Fix leaks.
- Watertight.
- Fit the surface to repair.

ACRYLIC TAPE

12.7KG

ProductDescription

- Crystal clear, does not affect the appearance, especially suitable for glass decoration.
- Resistant to high temperatures and solvents, it holds objects firmly and rigidly.

ACRYLIC TAPE

12.8KG

ProductDescription

- Provides excellent bond strength, water resistance, and weather resistance.
- At the same time, it shows excellent anti-aging properties.

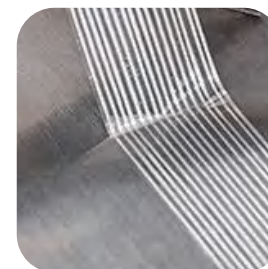

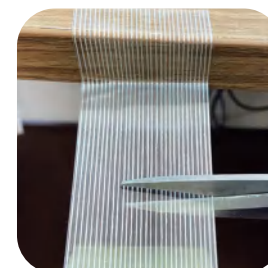

DOUBLE SIDE FOAM TAPE

10KG

ProductDescription

- Characteristics Flexible and Extensibility.
- Reliable and sticky.
- High temperature resistance.
- Extremely high shear retention.

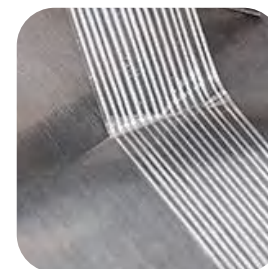

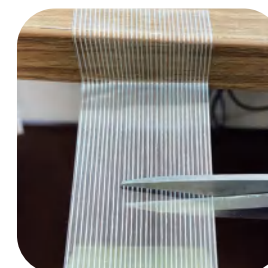

GLASS FIBER TAPE

ProductDescription

- High tensile strength is perfect for bundling, reinforcing, and palletizing.
- Weatherproof, moist resistant, UV and temperature resistant, suitable for most repairs.

GREENHOUSE REPAIR TAPE

-20-70°C

ProductDescription

- Provides excellent bond strength, water resistance, and weather resistance.
- At the same time, it shows excellent anti-aging properties.

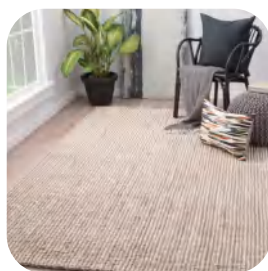

LAWN TAPE

ProductDescription

- It is sticky, non-slip, water-resistant, and light-resistant.
- Enables you to stitch turf firmly.

DOUBLE-SIDED DUCT TAPE

ProductDescription

- The adhesive cloth tape is easy to tear by hand and has no residue after tearing, making it easy to clean.

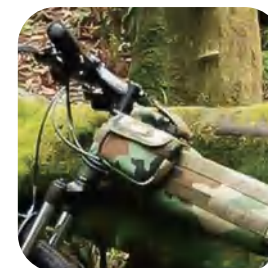

DOUBLE-SIDED PP TAPE

ProductDescription

- Excellent performance with strong adhesion, transparent, ultra-thin, waterproof, shock absorbing, insulating, heat-resistant, odorless, non-toxic, acid-free, removable and so on.

CAMOUFLAGE TAPE

ProductDescription

- Provides a strong and reliable grip.
- Ensure that the surface is non-reflective and wear-resistant.

TARPAULIN REPAIR TAPE

ProductDescription

- Has good adhesion and is difficult to tear in the attached area.
- The longer the time, the stronger the adhesion.

TARPAULIN REPAIR TAPE

ProductDescription

- Has good adhesion and is difficult to tear in the attached area.
- The longer the time, the stronger the adhesion.

TARPAULIN REPAIR TAPE

ProductDescription

- Has good adhesion and is difficult to tear in the attached area.
- The longer the time, the stronger the adhesion.

ALUMINUM FOIL TAPE

🔥 -20-120°C

ProductDescription

- Provides long-lasting adhesion at both low and high temperatures.
- UV resistant, humidity resistant, high temperature resistant.

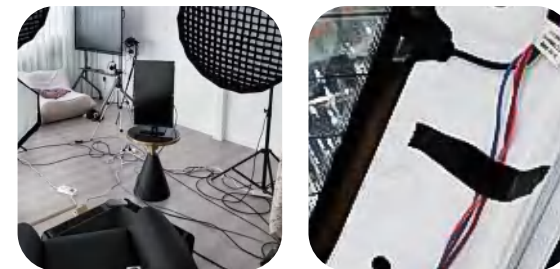

ALUMINUM FIBERGLASS TAPE

🔥 -20-180°C

ProductDescription

- Suitable for insulation, plumbing, and electrical work.
- It can be used to seal and reinforce vapor barriers, as well as to connect and seal sheath membranes.

GAFFER TAPE

ProductDescription

- Backstage-Bereichs am Set oder Backstage verwendet.
- Coated cotton cloth provides flexibility and strength.

FLUORESCENT NEON GAFFER TAPE

ProductDescription

- Glows under UV-black light.
- Made of durable UV cotton cloth and can be used both indoors and outdoors.

BUTYL REPAIR TAPE

ProductDescription

- The flexibility, strong adhesion, and weatherproof, great reflective heat insulation effect, the use of small grid corrosion-resistant aluminum foil film. It has the best waterproof performance, which can stop the leak effectively.

WINDOW SCREEN REPAIR TAPE

ProductDescription

- You can quickly and easily patch your screen temporarily or permanently.
- Repair of mesh damages and holes.

BATH & KITCHEN CAULK TAPE

ProductDescription

- Keep it clean and tidy.
- It offers a long-lasting seal and strong adhesion.
- Peel and stick materials for easy adhesion.

DRYWALL REPAIR FABRIC ADHESIVE TAPE

ProductDescription

- The high-density properties, combined with strong tensile strength and resistance to alkalis, ensure reliable robustness.

PAPER JOINTING TAPE

ProductDescription

- Suitable for filling and bonding cracks in internal and external corners.

PRE-TAPED MASKING PAPER

ProductDescription

- High viscosity, good adsorption, no residual glue. It can resist the erosion of paint and coatings.

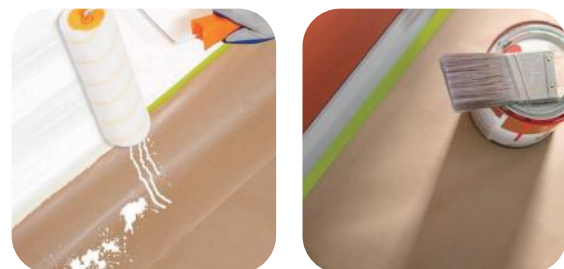

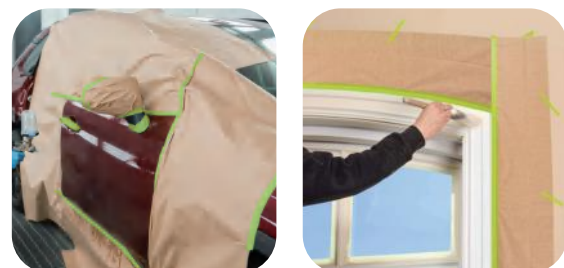

MASKING FILM WITH WASHI TAPE

ProductDescription

- Our plastic painting film is made of environmentally friendly PE (polyethylene) material, which is waterproof and oil-proof.

PRE-TAPED MASKING FILM

ProductDescription

- Easy to tear by hand, easy to cut, suitable for irregular surfaces. Good temperature resistance, no glue residue.

MASKING FILM WITH DUCT TAPE

ProductDescription

- Masking film is made of eco-friendly polyethylene material, dustproof, waterproof and not easy to scratch, with premium dustproof effect.

PROTECTIVE TAPE

ProductDescription

- Waterproof and All-Weather - Paint masking, indoor and outdoor decoration, door and window protection, zone marking, packaging.

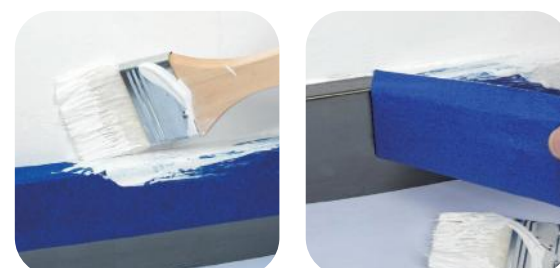

WASHI TAPE

ProductDescription

- Suitable for Sensitive Interior Surfaces.

CREPE TAPE

ProductDescription

- It can resist UV for 14 days.
- Heat resistant 120 degree
- No residue

REFLECTIVE TAPE

ProductDescription

- This material is waterproof and weather-resistant, and comes with pressure-sensitive adhesive for easy application.

GLOW TAPE

ProductDescription

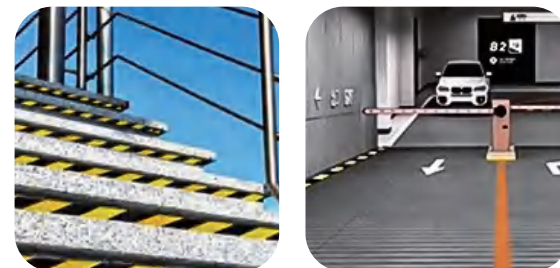

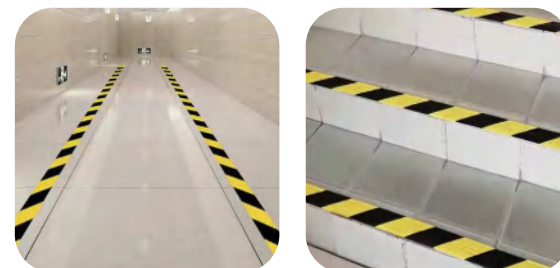

- This product is suitable for road signage, industrial equipment, vehicles, and other applications.

HONEYCOMB REFLECTIVE TAPE

ProductDescription

- It provides additional visibility on dark roads and catches light from any angle.

HIGH INTENSITY REFLECTIVE TAPE

ProductDescription

- It provides additional visibility on dark roads and catches light from any angle.

PVC FLOOR TAPE

ProductDescription

- This caution tape has pressure sensitive adhesive and high adhesion.
- Without any scuffing, scratching, or peeling even if install in heavy traffic areas.

PVC RELECTIVE TAPE

ProductDescription

- PVC reflective tape is a reflective material with polyvinyl chloride (PVC) as its base material, primarily used in traffic safety, vehicle identification, and other fields.

DOUBLE SIDE FOAM TAPE

10KG

ProductDescription

- Reliable and sticky.
- High temperature resistance.
- Extremely high shear retention.

DOUBLE SIDE FOAM TAPE

10KG

ProductDescription

- Reliable and sticky.
- High temperature resistance.
- Extremely high shear retention.

DOUBLE SIDE FOAM TAPE

18KG

ProductDescription

- Aging resistance.
- Windproof and dustproof.
- High toughness and durability.

NANO TAPE

10KG

ProductDescription

- Super Strong Adhesion.
- Residue-Free Removal.
- Reusable & Washable.
- Multipurpose Use.

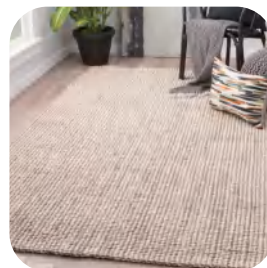

GRID NANO TAPE

10KG

ProductDescription

- Using cutting-edge nanotechnology, the unique grid pattern provides superior adhesion.
- It is waterproof, moisture-proof, and weatherproof.

NON SLIP REUSABLE RUG STOPPER

ProductDescription

- Hold the carpet in place Say goodbye to curly corners.
- Washable and reusable.
